Strict	dplain: Is the property located in the City of Austin regulat ter permit regulations apply to any building, remodeling, o plain. Approval for demolition does not guarantee approv	construction or other development on locations in the
Con	sent, Authorizations, and Signatures	
I und	erstand and will adhere to the following rules or regulatio	ns:
1.	No work may begin prior to issuance of this permit. work.	All required permits must be obtained prior to the start of
2.	Verify with the Development Assistance Center that new PRIOR to submitting this application.	construction will be permitted on the property at this location
3.		r sewer services provided by the City of Austin, you must 4-9400 to obtain specific water and sewer service information.
4.	For disconnect and removal of services by Austin Energy,	contact City of Austin's Utility Contact Center at 512-494-9400.
5.	Water/waste water tap permit <u>application</u> for Commercia (<u>AWTaps@austintexas.gov</u>). Water/waste water tap permAB+C portal.	al shall be emailed to Austin Water Taps mit application for Residential shall be completed via the

- 6. Erosion and sedimentation controls are required by the City of Austin Land Development Code (§23-4D-7; F25-8-181). Failure to comply may result in a Stop Work Order and/or legal action by the City of Austin, including criminal charges and fines of up to \$2,000 per day. Inspection of erosion, sedimentation controls, and tree protection must be requested by the owner before construction begins (§23-5B-6050 (B); F25-1-288). Call (512) 974-2278 or email environmental.inspections@austintexas.gov to obtain these inspections.
- 7. Tree preservation is required per the Land Development Code (Article 23-4C; F25-8-B) and Environmental Criteria Manual (§3.5.2 (A)). Proposed work that will remove, impact the critical root zone, or prune more than 25% of the canopy of a protected size tree must be reviewed for a tree permit. Note: Root zone protection measures (e.g. fencing, boards attached to the trunk, mulch) are required prior to work.
- 8. If the proposed work will require use of City right of way, a Right of Way Application must be approved. Obtain an application from the Transportation Department at (512) 974-7180 or www.austintexas.gov/rowman.
- 9. The Historic Preservation Office will determine if the referenced structure meets historic designation criteria as defined by the Land Development Code (Article 23-6E; F25-11-213 to 214; and §23-3C-10090; F25-2-352). Additional review by the Historic Landmark Commission may be required and additional fees may be assessed. If the property is a historic landmark or is located in a local or National Register historic district, the Historic Landmark Commission must review plans for new construction before the demolition permit is released. Call (512) 974-3583, email preservation@austintexas.gov, or visit www.austintexas.gov/department/historic-preservation for more information.
- 10. Construction projects exceeding 5,000 square feet of new, added, or remodeled floor area and all permitted commercial and multi-family demolition projects are required to divert construction debris from the landfill per the Land Development Code (§23-6C-2060; F25-11-39). Email construction-recycling@austintexas.gov or visit www.austintexas.gov/department/construction-demolition-recycling-ordinance for more information.
- 11. Approval of a demolition permit does not guarantee approval for new construction in the City of Austin regulatory floodplain.
- 12. For properties in the City of Austin regulatory floodplain, a determination of substantial damage and/or substantial improvement (for partial demolitions) may trigger additional floodplain regulations.
- 13. Greater than 50% of exterior walls demolished will require compliance with the Demolition Notification requirements (Ordinance 20201001-040)
- 14. Approved permits may be obtained from the Service Center. Any additional fees will be assessed at that time.
- 15. Assigned contractors must schedule a pre-demolition inspection with the assigned inspector prior to any demolition activity and prior to the notification requirements being initiated. Information as to finding your assigned inspector can be found at www.austintexas.gov/page/building-inspections. Contractors must place a yard sign at the site and place door hangers at the ten adjacent residential properties at least five days before the demolition can occur. The yard sign and door hangers must include the permit number, contractor and applicant contact information, as well as helpful contacts for DSHS, TCEQ, and OSHA.

I, the undersigned, hereby swear or affirm that the information provided in this application is true and correct to the best of my knowledge and is an accurate reflection of my intentions for the above structure and/or property. I understand that any omission or incorrect information herein will render this application and any permit obtained invalid.
