

The streets highlighted (yellow) in the rankings below were chosen for the first round of 2022 Speed Management projects. The street rankings are based on crash, speed, volume, and community context. For additional information on the scoring you can review our [Traffic Calming Methodology](#). Selected streets for speed management projects will consider the start and ending point of the project segment based on engineering review. Streets will be re-ranked twice a year, and these scores are subject to change based on changes in crashes, speed, volume, and/or community context.

#### 2022 Speed Management Round 1 Data Rankings

Rank	Street Name	Measured Speeds Score	Volume Egregious Speeding Score	Crashes Score	Context Score	Total Score*	Council Districts
1	HARGRAVE ST	30	25	20	15	90	1

\*The final rankings for streets with the same overall score are set based on the sum of the individual rankings for each data category used in the program methodology (speed, volume, comprehensive costs per mile from crashes, and context). Rankings will be updated in the next round of scoring.
