Address: _____
(street) (city) (zip)

RSMP PARTICIPATION INFORMATION

Attachments Required for Participation through Payment under DCM 1.2.2(G):

- Engineer's Report (including explanation and certification as needed to meet parts 1-4)
- PDF printout of property information from appraisal district website or certified appraisal
- Existing and Proposed Drainage Area Plans (2 sheets)
- Existing and Proposed Site Plan Sheets (site plans) or Grading and Drainage Sheets (subdivisions)

Attachments Required for Participation through Construction of off-site drainage improvements (IN ADDITION TO THOSE REQUIRED FOR PAYMENT):

- Modeling files (usually in a zipped file with all backup files as needed) – including StormCAD, HEC-HMS, HEC-RAS, and/or others as required for the specific improvements being proposed.
- Engineer’s Cost Estimate (signed and sealed)
- Plan and Profile Sheet(s) of drainage improvements (from construction plan sheet set)

-----FOR OFFICIAL RSMP STAFF USE ONLY-----

Based on our review of the information and supporting documentation provided, the site in question meets the requirements of DCM 1.2.2(G) for single-family residential development participation. A feasibility meeting has been held and the type of participation decided as:

- payment in lieu of on-site detention, or
- construction of off-site drainage improvements. The scope of the proposed improvements is reflected in the cost estimate and plan/profile sheets from the construction plans.

Participation under DCM 1.2.2(G) does **not** exempt the development from meeting all other sections of Code and Criteria.

Based on our review of the information and supporting documentation provided, the site in question meets the requirements of DCM 1.2.2(G) for commercial / multi-family residential / mixed-use development participation. A feasibility meeting has been held and the type of participation decided as:

- payment in lieu of on-site detention, or
- construction of off-site drainage improvements. The scope of the proposed improvements is reflected in the cost estimate and plan/profile sheets from the construction plans.

Participation under DCM 1.2.2(G) does **not** exempt the development from meeting all other sections of Code and Criteria.

Area of allowable exclusions (acres): _____ Impervious Cover Allowable by Base Zoning: _____
